

Lesson Plan

Grade level(s): 10th Grade

Topic: How to Find a Book in the Library

Objective(s): With a partner, students will look up books in the catalog and find them on the shelf using the call number.

Big6 Skills: Location and Access
Use of Information

Materials Required: Pen and Handout

Time Required: 70 minutes

Description of activities:

- Students will pair up with a partner.
- They will go to “Skyline Media Center” homepage.
- They will access the Skyline Online Catalog.
- Each pair has a list of books for which they are searching.
 - They type in the title of the book.
 - Write down the call number.
- Once they have looked up all of the books on their list then they go and search for the book on the shelf.
 - Once they find the book on the shelf then they write down the color of the cover of the book.
 - Once they find all of the books then they return the handout to me and receive a piece of candy.

Assessment: Did they write down the correct call number and color on their sheet? Did they have a good time and ask questions?
